EDUCATION

Shanghai Jiao Tong University

B.E. IN NAVAL ARCHITECTURE AND OCEAN ENGINEERING, B.S. IN MATHEMATICS

Shanghai, China

Sep 2020–Jun 2024

- Double Major
- GPA: 3.51/4.3, Weighted Average: 84.03/100, Ranking: 10/25
- Recommended for admission to Huazhong University of Science and Technology for an M.S. in Computer Technology

Huazhong University of Science and Technology

M.E. IN COMPUTER TECHNOLOGY

Wu Han, Hubei, China

Sep 2024–Present

- GPA: 3.91/4, Weighted Average: 92.27/100, Ranking: 1/187
- Topic: Computer vision, 3D Generation, World Modeling

HONORS

International |

2023 **Finalist**, VEX Robotics World Championship Event

Dallas, U.S.A

2023 **Third Place**, VEX Robot Skills

Dallas, U.S.A

Domestic |

2024 **Third Place**, Robot World Cup China Open (Technical Challenge)

Jinjiang, Fujian, China

2023 **Second Place**, Robot World Cup China Open

Shanghai, China

2022 **Third Prize**, The First World Robot Competition

Shanghai, China

2024 **First-class Scholarship for Postgraduates**, HUST

Wuhan, Hubei, China

2023 **Class B Scholarship**, SJTU

Shanghai, China

NeurIPS 2026 Under Review

¹Shanghai Jiao Tong University ²Huazhong University of Science and Technology ³CUHK MMLab

SKILLS

Programming Python, C++, MATLAB, CUDA, Docker

Technologies PyTorch, JAX, OpenGL, Eigen, CMake

Profession NeRF, 3D Gaussian Splatting, MuJoCo

Language TOEFL 94, GRE 327(V159 + Q168 + W3.5)

PROFESSIONAL EXPERIENCE

RESEARCH |

Research on End-to-End Aircraft Generation

Shanghai, China

SOLE CONTRIBUTOR

Feb 2026–Present

- An Image-to-3D aircraft generator built based on the Trellis 2.0.
- The SC-VAE and DiT models in Trellis2.0 were fine-tuned with aircraft data.
- Completed and submitted the paper *AeroGen: JSON-Conditioned 3D Aircraft Generation*.

Self-Supervised 3D Occupancy Reconstruction with Vision Geometry Foundation Models

Shanghai, China

CORE MEMBER

May 2026–Present

- Surveyed SceneDINO, OccAny, and VGGT for 3D reconstruction without explicit 3D labels.
- Used VGGT-predicted depth, cameras, and point maps as soft priors for multi-frame 3D occupancy.
- Designed self-supervised losses with differentiable rendering, RGB/feature reconstruction, and geometry consistency.

Dynamic 3D Scene Modeling for Video Generation and 3D Memory

Shenzhen, Guangdong, China

CORE MEMBER

May 2026–Present

June 22, 2026

Yue Wu · CV

1

- Explored Self-Forcing / Diffusion Forcing for long-term consistent dynamic 3D scene generation.
- Studied explicit/implicit 3D Memory representations to improve temporal consistency and controllability.
- Combined non-rigid motion capture and 3D simulation for video-driven dynamic 3D content generation.

COMPETITION |

VEX U

CORE MEMBER

Shanghai, China

Jul 2022–Jun. 2023

- The challenge involves robots picking up disks from specific locations and shooting them into target baskets.
- Responsible for the route planning and motor control code of the automated stage machine.
- Awarded as Finalist at the 2023 VEX Robotics World Championship Event held in Dallas.

RoboCup

CORE MEMBER IN HARDWARE AND SOFTWARE TEAM

Shanghai, China

Sep 2022–Jun 2024

- Robotic soccer.
- Led the design and production of the ball-collecting roller for the robotic vehicle.
- Analyzed over 10,000 lines of code to contributing to defensive tactics and certain offensive strategies.
- Earned 2nd place at the Robot World Cup China Open.

INTERNSHIP |

Qiu Zhi Technology (Wuxi). Co., Ltd.

ALGORITHM INTERN, WORLD MODELING TEAM

Wuxi, Jiangsu, China

Jul 2025–Apr 2026

- Research at modeling non-rigid objects, either leveraging PhysTwin as a foundation or employing neural network approximations.
- Adding non-rigid object simulation to MuJoCo.
- Commit 30+ hours weekly exploring generative world models and replicating their results.
- Finished the referee system for Xmatev.

PERSONAL

Music Violin-Grade 8 (Amateur Level, China Conservatory of Music)

I also love guitar and singing.

Athletics I love swimming, and I'm a bronze-level dancer in Latin genre.

Travel Annual summer travel to a Chinese province cultivated my cultural and historical sensitivity.
